## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim 8, drawn to a cement composition.

Group II, claim 9, drawn to a cement composition.

Group III, claim 10, drawn to a cement composition.

Group IV, claim 11, drawn to a cement composition.

Group V, claim 12, drawn to a cement composition.

Group VI, claim 13, drawn to a cement composition.

Group VII, claim 14, drawn to a cement composition.

2. The inventions listed as Groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Each claim is drawn to a cement composition comprising different components from each other. Group I does not require the clinker of Groups II and III or the calcium aluminate of Group IV. Group I does not require the addition of alumina which is a required addition in Groups V and VI and does not require the coagulant of Group VII. Group II does not require the same clinker as Group III and requires a clinker which is not required in Groups III, IV, V and VII. Group III requires a clinker which is not required by Groups IV-VII. Group IV requires calcium aluminate which is not a required component in Groups V-VII. Group V requires alumina which is not a required component in Groups VI and VII. Group VI requires an aluminum silicate which is not required in Group VII.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
